DETAILS

Basis of Investigation: On 19 Jul 04, this office was notified by the 391st Military Police (MP) Battalion (BN), Baghdad Central Confinement Facility (BCCF), Abu Ghraib, Iraq (AGI), that Detainee [REDACTED] National Detainee Reporting System (NDRS) # [REDACTED] Baghdad, Iraq; Baghdad, Iraq, was possibly abused prior to arriving at BCCF. b7c-4, b6-4

About 1115, 19 Jul 04, SA [REDACTED] and SA [REDACTED] this office, coordinated with SGT [REDACTED] 428th MP Company, In Processing NCOIC, BCCF, AGI, who stated that he noticed Detainee [REDACTED] had abrasions on both wrists and an apparent injured right wrist. He stated the detainee made no allegations of being abused. He further stated the transporting unit from 1st Cavalry Division stated there were statements in the detainee file explaining the injuries. b7c-2, b6-1
b7c-4, b6-4

AGENT'S COMMENT: The transporting unit departed the area prior to this agent arriving at Detainee In Processing.

About 1130, 19 Jul 04, SA [REDACTED] and SA [REDACTED] with the assistance of Linguist [REDACTED] this office, interviewed Detainee [REDACTED] who stated he was captured on 3 Jul 04 in Baghdad, Iraq. He was transported to a detention facility near Al Satar City, on Rashad Base. [REDACTED] stayed for one night and was then transported to an unknown facility about 45 minutes travel time from his previous location. He stated he was blind folded with a cloth tied around his eyes, but it was removed when he arrived at the facility. He was taken into a cell that had two beds. Detainee [REDACTED] stated he was put in the cell by himself, which he related he did not like. He was in the cell for 16 days. On the ninth day he stated he was screaming in his cell, because he did not like being by himself. He stated that three US Soldiers entered his cell and pushed him to the floor. The soldiers then cuffed his hands behind his back with metal cuffs and tied his feet with plastic cuffs. Detainee [REDACTED] stated that he began to thrash because he was scared and one of the soldier put his knee in his back. He said the soldiers then placed him on a stretcher face down and placed another stretcher on his back. They then tied ropes around the stretcher, which pinned Detainee [REDACTED] between the stretchers. He said he still continued to twist his shoulders and arms. He said the soldiers then turned the stretchers over, which left him facing upwards. He stated he was there for about 3 hours. He stated he was screaming for help and his right wrist was going numb and felt like it was cut off. He stated that after three hours, a doctor came in the room and pushed the soldiers aside. The doctor cut the ropes and removed the handcuffs. Detainee [REDACTED] was left to sleep on the floor until the next morning. A doctor saw him several times before and after the incident. Detainee [REDACTED] stated he was not punched, kicked, beat, or slapped in anyway after this incident. b7c-3, b6-3

Detainee [REDACTED] described the three soldiers as the following: b7c-4, b6-4
Soldier one was described as a dark skinned (not black), muscular, male with a black short beard.
Soldier two was described as a white male, average size, with blond hair and no facial hair.
Soldier three was described as a tall white male, average size, with blue eyes.

All three soldiers were in DCU's.

AGENT'S COMMENT: During the interview, the detainee expressed he did not like being left alone in rooms. He stated he would become agitated and upset when this happened. When this agent was escorting him into the interview room, the detainee became visibly upset, with tears in his eyes. Once the interview was complete, the detainee was placed in a holding room with no other detainees. He once again became visibly upset and asked to be placed in a cell with other detainees.

About 1210, 19 Jul 04, SA [redacted] exposed photographs of Detainee [redacted] injuries using a Kodak Digital Camera. (See Photographs)

About 1330, 19 Jul 04, SA [redacted] interviewed CPT (DR) [redacted], 391st MP BN, Detainee Aid Station (DAS), BCCF, AGI, who provided a copy of the medical screening conducted at BCCF. He stated he conducted a medical screening on Detainee [redacted]. He stated the abrasions to the wrist were consistent with some type of wrist restraints and either being left on to long or the person struggling while restrained. He further stated the apparent swelling and possible broken bone was consistent with a fall. (See Medical Screening)

AGENT'S COMMENT: CPT [redacted] stated no X-ray could be conducted at this time due to the X-ray machine being broken.

AGENT'S COMMENT: The medical screening revealed that [redacted] stated a soldier had placed a knee on his wrist while they were restrained. Linguist [redacted] stated this discrepancy could be a result of translation.

About 1500, 19 Jul 04, SA [redacted] coordinated with Detainee In Processing and obtained a copy of Detainee [redacted] detainee file. A review of the file revealed extensive medical documentation of "Seizure like" episodes while detained from 5 Jul 04 until 18 Jul 04. The episodes were described as the detainee jumping up and down, falling to the ground and screaming. The detainee also attempted to hurt himself during these episodes. The medical records noted the injuries the detainee received as a result of the incidents. They also recorded an incident in which the detainee was restrained using stretchers, as described by [redacted]. (See Detainee File)

About 1600, 19 Jul 04, SA [redacted] coordinated with CPT [redacted], who reviewed the medical records contained in the detainee file of Detainee [redacted]. He stated the records reflect what he described more as possible panic attacks on several occasions during Detainee [redacted] detention. He also stated the injuries sustained by Detainee [redacted] were consistent with the documented incidents. He further stated that using stretchers, in the manor described by the
